## Problems With the Current System:

**PAPER ON THE DOOR!**

- For the students:
  - Time consuming
  - System easily exploited without any cost:
    - Multiple bookings by the same group
    - Inability to regulate and monitor bookings and cancellations The room resources are allocated unfairly
  - Insecure System--- the paper schedule is easily lost or tampered with
- For the administration staff:
  - Strenuous to monitor the state of the rooms
